CONTRACT FOR

DALY-WEST WAS STRONGER TODAY

Above Saturday's Figures.

EAGLE & BLUE BELL ACTIVE | NEARLY \$9,000 PER WEEK.

Dexter Advancing - May Day Unchanged-Ren Butler Firmer-Geyser-Marion Traded In.

TODAY'S METALS:

SILVER 61% LEAD, \$3.871/2

CASTING COPPER 151/2

A marked advance is recorded today in Daly-West. The first sale was made at \$17.15, which was 23 cents per share at \$17.15, which was 23 cents per share higher than Saturday's highest sale. The stock did not stop there, however, but jumped up to \$17.37\foralle, closing a little weaker with \$17.30 bid.

Eagle and Blue Bell was active at prices ranging from \$2\foralle to 84\foralle.

Geyser-Marion recorded the sale of 1,000 shares at 4\foralle, while Mammoth dropped 100 at \$2.15.

May Day continues stationary around 94.

Northern Light let go 3,500 at 1%, while Ben Butler sold at 1% and closed

Yankee Con, appeared weaker today. Grand Central is firm. Valeo is practically unchanged as is Lower Mammoth.

Dexter continues to improve closing today with 97½ bid.

NEW ELY MILL

Mercur Meeting-Ben Butler Strike-Park City Items-Mining Notes.

The contract to build the new mill for the Ely Mining company at Ely, Nevada, has been let to the Salt Lake Hardware company. The cost of the building and equipment will be \$20,000, The hardware company will furnish all the material necessary for the mill which is to treat 100 tons of ore per day by the cyanide process. The company will undertake the erection of the building, and it is expected that four months will witness its completion. Meantime the work of sinking a work-ing shaft is still going forward.

MAMMOTH MILL.

Remarkably Good Success Attending Present Treatment.

The bullion output of the Mammoth mill from the 1st of July up to today amounts to \$14,280 in value. During the ame period over \$12,000 worth of conentrates have been sold, which makes he total output of the mill for the past If days amount to upwards of \$26,000.

The ore being milled is said to be of good grade, but the increase in the vale of the mill output as shown by the above figures is said to be largely due to the efforts of Superintendent Mc-Intyre, who has been experimenting for some time past with new methods of treatment. A 25 per cent better ex-traction is said to be obtained now than has been secured previously.

PARK CITY NOTES.

The California Group-At the Comstock-Ore Shipments.

In its review of the week at Park City the Record says:

The Constellation deal, mentioned last week, has not yet been fully setlast week, has not yet been fully settled, though the price and most of the details have been agreed upon. We understand the only point yet to be settled is the amount the leasers are to deposit for first payment. We are unofficially informed that the amount of the lease and bond is \$115,000, though we did not leave here they are the settled. we did not learn how the payments were to be made. Messrs, Thompson, Rookledge and others are making the negotiations for the leasers, and we nope by next week to be able to give full particulars.

Thomas Losecamp of the California notions resecamp of the California was down from Thaynes canyon the first of the week. He says there is enough material in sight to run the mill steadily for twelve months. An order for enother Huntington and Wilfley table has been placed and will soon be added to the present equipment of the plant. This will increase the capacity of the plant to fifty tons par day pacity of the plant to fifty tons per day. The ore bins and chutes are all completed and the mine is now in excellent

shape for production. The large boilers at the Massachu-estis were inspected this week with a view to their condition, etc., and will soon be put in commission at another

James Hickey was down from the Constock Wednesday, He reports work on the shaft house and other buildings going right along. The new shaft is going right along. The new shaft is already down a distance of forty-five feet and sinking quite rapidly. Mr. Hickey will commence timbering this

Hugh Kilkenney of the Little Bell Mining company went down to the me-tropolis Wednesday. His object is to consult with P. L. Williams president of the company, relative to work of a permanent nature to be do le on the Little Bell ground, and which has been outlined. Mr. Kilkenney expects to re-sure operations here in a very short time, and entertains no doubt of satis-

factory results
P. H. Lyrch left Sunday afternoon for Park valler to superintend the erection of a taill for the Century company It is a gold proposition. Mr. Lynch !s a first-class mill man, and an one to be erected is to be of the latest and n ost approved pattern. Should mat-ters turn out as at present expected, Mr. Lynch will move his family to that district.

KLONDIKE GOLD.

Thirty Passengers Arrived on the Steamer Amur with Fortunes.

A dispatch from Victoria, B. C., states that the steamer Amur reached there yesterday afternoon, bringing the largest number of rich Klondikers and more gold than has previously arrived from the North this season. There is at least \$1,000,000 in gold dust on board the steamer and ninety passengers, one-third of whom made fortunes in the far

The general opinion of these men, who are actually engaged in mining, is that the output for the year will be \$25. 000,000. This large output is accounted for by the fact that just as much gold is now being taken out in summer as in

winter. A man who went over the creeks to estimate the output said it was hard to make an estimate, as claim-owners refused to give the output for fear that the royalty of 10 per cent will be exacted by the government. Many of the largest claims barely pay expenses, and if they paid a royalty there would be a

loss for the year.

Doctors say there is no cases of smallpox in Dawson, but some typhoid.

Arrangements for the suppression of disease are the very best.

The American and Canadian bound-ary commissioners have completed their work above Haines Mission and are now working at White Pass. The In-dians have entered protest against the erection of a custom house on the boundary, on the ground that it will restrict their trade with interior In-

The courts have decided in favor of

Ben Butler Assays.

At a distance of 30 feet from the end of the 1,00-foot tunnel at the Ben Butler of Bingham several streaks of ex-cellent looking oro has been encoun-tered A. L. Jacobs has just returned from the property and is much pleased with the outlook. Mr. Jacobs received returns this afternon from the samples sent to the assay office. These show 2.2 per cent copper, 52.8 per cent lead, 8.2 ounces silver and \$1 in gold per Superintendent Jacobsen reports the property improving today.

The Mercur Meeting.

The shareholders of the Mercur Mining company met on Saturday after-noon according to schedule and adopted the resolution to organize a new company under the laws of New Jersey and Mining company to the new corpora-tion. The arrangement of details will delay the consolidation until about August 1st. In the meantime Vice President John Heimrich is authorized to act for the Mercur stockholders in the signing of documents.

MINING NOTES,

The Albino was on the market today with a car of ore. Supt. P. H. Tallon, of the Joe Bowers

of Dlamond, is in town. An important strike is reported in the Centennial-Eureka at Tintic.

A car of ore was on the market today from the Katherine of Stockton.

Five cars of ore were on the market today from the Mammoth of Tintic. Manager George H. Dern of the Mer-

cur mine left for that property today. The Taylor-Brunton sampler reported five cars of ore from Stockton today.

The Utah of Fish Springs has another car of ore on the market today. Supt. John H. McChrystal of the Godiva came in from the district today. A car of ore was on the market today

The West Morning Glory assessment of one-fourth cent per share became delinquent today.

from the Peterson property at Stock-

Victor M. Clement has returned from Montana, where he went last week on mining business. L. E. Riter and Claude Wheeler of the

South Swansea came down from Brighton today. Samples of fine quartz carrying values have been received from the R. G. W. Group at Tintic.

Nightforeman R. M. Wilkinson of the Mammoth mill came in from Tintic today to spend the 24th.

Five cars of concentrates were reported today from the Ophir Hill property owned by W. A. Clark. A. W. McCune has returned from a

visit to Deer Lodge district and is much pleased with the outlook there. John T. Cowans is back from the Pony district in Montana, where he is interested in the Old Joe mine,

The Conklin sampler reported five Stockton, and 1 from Fish Springs to

S. H. Gilson expects to give an exhibition of a working model of his hy-draulic concentrator within the next few days.

A car of ore was reported today from the Joe Bowers of Diamond. A force of fifteen men are busy extracting ore and prospecting on the 450 level.

The Lucky Boy reached the local sampling rooms today with about 200 pounds of cyanides. The Chloride Point was also in with a shipment.

E. V. McCune was at the Red Rose Mine Sunday, says the Tintic Miner. The property has been closed down indefinitely, for what reason is unknown.

Word has been received from Delos Lombard of the Ridge & Valley that a change has occurred in the south drift at between 400 and 500 feet from the shaft. Ledge matter consisting of talc and iron is being encountered.

Tintic Miner: Supt. Ball is extracting some excellent copper ore from the 700. foot level at the Lower Mammoth from a recent strike. The new engine has been installed and the compressor is ready to be run upon its foundation immediately upon the arrival of the motor. The engine will be run by comsor coming from the electric dynamo.

Rawlins (Wyo.) Journal: J. E. Foote Rawlins (Wyo.) Journal: J. E. Foote and son of Salt Lake spent Monday in the city, leaving Tuesday morning for Wolcott to assist in loading a concentrator which they are shipping into Battle Lake. Mr. Foote has made arrangements for working the Ferris-Haggarty dump and will begin operations as soon as he can get his concentrator at work. He has had the dump tested and says he has the biggest thing in the country. It is his ingest thing in the country. It is his inone and then ship to the smelter.

Venetian evening," Lagoon, July 24.

St. Paul, Southern Pacific and Others in the List.

Sugar Takes a Drop-Interest Bate is Low-Wheat Goes Down-Live Stock Higher.

New York, July 23.-Wall Street: Declines in American securities in London vere ignored here. Pronounced strength was manifested in certain stocks of individual groups. For instance, St. Paul was strong in the grangers, Southern Pacific led the Pacifics, leather the industrials, Tennessee coal the steel group and Metropolitan the tractions. Gains reached a point or better. In other stocks there were some sympathetic gains. Sugar did not hold the opening rise of a point and its drop checked the advancing tendency elsewhere. Continued absorption of Tennessee coal carried it up 4% and induced a better demand for other stocks, some of which gained a point A large number of inactive stocks were lifted from 1 to 21/4.

Burlington

Our cars are no petter-in themselves -than the cars of other lines. It is what is INSIDE them that makes them nore comfortable.

more comfortable.

For instance: The seats in our reclining-chair cars are provided with linen head pieces—clean and cool. Our dining-cars have electric fans, and are gorgeously decorated with flowers. In every car is a thermometer, which the porter constantly consults in order to keep the temperature of his car as near. uniform as possible.

y themselves, these things are trifles, but the sum total of them goes a long way toward making a trip over the Burlington a mighty enjoyable experi-
